Dennis,

Honeywell submitted their PMO plan, per the CD. I got an email from VADEQ saying they are ok with it and I am too. I am going to have a quick discussion with the VADEQ inspector before I send the letter but I wanted to send you a draft letter just to read over and the PMO plan. I haven't seen the actual letter from Honeywell but the VADEQ inspector emailed it to me, as they get their mail a lot faster than we do.

Zelma said she's ok with me signing letter like this as I am the contact from the CD. Just want to make sure you are ok with that? Let me know.

Kris
